SKILLS

- SQL (Advanced Querying, Window Functions, CTEs)
- Power BI (DAX, Data Modeling, Interactive Dashboards, Reporting)
- Excel (Pivot Tables, Power Query, Dashboards)
- Python (Pandas, Seaborn, Data Cleaning, Automation, Data Wrangling)
- Data Analysis (EDA, Reporting, Insights)
- Git & GitHub
- HTML

PROJECTS

Game Graphics Performance Analysis: The Cost of Visual Fidelity

- Analyzed 72 benchmark runs across 4 AAA games using **Python**, **SQL**, and **Power BI** to quantify performance tradeoffs between graphics quality, FPS stability, GPU utilization, and thermal performance
- Built a relational data model and interactive **Power BI** dashboard with DAX to identify graphics preset efficiency and communicate optimization insights

Movie Performance & ROI Analysis: From Budget to Blockbuster

- Cleaned and transformed 45,000+ movie records using **Excel Power Query**, resolving missing values, inconsistent formatting, and data quality issues
- Performed exploratory data analysis and built an interactive **Excel** dashboard to evaluate relationships among budgets, revenue, popularity, ROI, and production trends

Retail Sales Analysis: Driving Retail Performance

- Built an interactive **Power BI** dashboard using **Power Query**, DAX, and a star schema to analyze sales, profitability, customer behavior, and regional performance
- Identified sales and profitability trends across products, customers, and regions to support business decision-making

EMPLOYMENT

Clinical Research Coordinator

April 2025 – September 2025

Intermountain Health

Murray, UT

- Collected, entered, and maintained clinical data across REDCap, EPIC, and iCentra EMR systems following GDP and ALCOA-C standards
- Maintained regulatory research records in compliance with federal regulations, institutional policies, and FDA Good Clinical Practice
- Recruited and consented patients across registry, observational, and biospecimen studies
- Coordinated study procedures and communicated updates with investigators and regulatory teams

Lead Laboratory Technician

November 2020 – September 2024

Laboratory Animal Resource Center

Provo, UT

- Supervised a team of 12 lab technicians and trained 20+ staff in standardized lab procedures
- Developed and updated SOPs to ensure compliance with regulatory and institutional requirements
- Maintained animal health and behavioral records and managed care documentation systems
- Collaborated with veterinarians and investigators to improve research quality and animal care
- Optimized equipment maintenance procedures and performed routine husbandry and facility upkeep

EDUCATION

Bachelor of Science in Biology

September 2019 – August 2024

Brigham Young University

Provo, Utah
